

# Shed / Barn Panelized Kit Step-by-step Instructions

**IMPORTANT:** This is only a SAMPLING of the instruction manual, and will vary depending on the style of your building. when your DIY Panelized Kit arrives there will be an envelope inside containing layouts for your specific product and an instruction manual. Depending on the size of the building and skill level, assembly will take approximately 4-8 hours. The panelized kit comes with pre-assembled panels (with the exception of the roof) and requires no extra cutting. All you need to do is fasten it together with the hardware provided. The unit is primed and ready for paint. You will need to provide shingles, drip edge, and paint – a quantity list will be provided.

## STEP 1: FLOOR

Purchase the optional floor kit from Little Cottage Co. or purchase supplies from your local home improvement store.

## STEP 2: WALLS

Your kit will come with wall sections and other supplies.

## STEP 3: SKILLS

Basic carpentry skills required

## STEP 4: WALL PANELS

Install the pre-made wall panels.

## STEP 5: TRIM

Install shutters and flower boxes (included in kit).

## STEP 6: ROOF

Install the pre-cut trusses and pre-cut sheathing that make up the roof.

## STEP 7: BUILD PORCH

Install drip edge and roof shingles (not included, available at local hardware store).

## STEP 8: PAINT & ENJOY!

Your building is primed and ready for paint. Next step... enjoy storage with style!
